

# RICH VINYL<sup>III</sup>

## WINDOW SYSTEM

*Energy Efficient and Maintenance Free*

# RICH

**Multi-unit with double-hung, stationary and double-hung shown**

B.F. Rich has been setting the standard for excellence in windows and doors for American homeowners since 1957.

Our state-of-the-art facility has been recognized for having the “Most Innovative Plant” in Window and Door’s™ Crystal Achievement Awards.

B.F. Rich makes use of the latest advances in manufacturing and materials technology to create window and door systems that significantly exceed industry standards. B.F. Rich delivers outstanding value.

At B.F. Rich, “Quality First” is much more than our company slogan — it’s an operating philosophy that reaffirms our commitment to customer satisfaction every day.

When it comes to investing in your home, custom-designed Rich Vinyl™ windows enhance its beauty, value and enjoyment. No one delivers more value for the price than B.F. Rich.

**Your B.F. Rich authorized dealer will assist you in designing the windows that best fit your home’s particular style and specifications.**

The elegant look, panoramic view and additional light provided by B.F. Rich window systems make rooms feel bright and airy, bringing the outdoors closer while insulating you and your family from winter’s bitter cold and summer’s scorching heat.

Using the latest engineering technology from around the world, we construct each of our window systems with the highest-quality materials available. Our state-of-the-art plant streamlines the manufacturing process to ensure a lifetime of trouble-free performance at a surprisingly affordable price.

# WINYL

B.F. Rich windows offer a combination of quality and value you won't find anywhere else.

Every one of our Rich Vinyl™ windows is custom computer-designed to your home's exact specifications, and is available in your choice of any combination of double-hungs, sliders and picture windows.

## Locking Screen

2-lite slider with lift-out-to-clean sash  
3-lite sliders also available in  
1/4-1/2-1/4 or 1/3-1/3-1/3 configurations

Rich Vinyl™ double-hung windows provide the convenience of easy tilt-in cleaning of both upper and lower sashes from the interior of your home, plus the added home and family security of a cam lock, double night latches and locking half screens. A full screen option is available for double-hung and 2-lite sliding windows.

Every sash and frame is constructed of heavy-duty vinyl extrusions for unparalleled strength, durability and resistance to air and water infiltration. And because they're solid vinyl, they'll never need painting, and will never crack, peel, warp or blister. That's the B.F. Rich guarantee.

## Low-E & Argon Insulated Glass

Our performance tested optional Low-E Glass and Argon filled air space enhances the thermal efficiency of our windows. Argon filled air space also adds to the sound reduction properties of our warm edge insulated glass. B.F. Rich windows & doors with Low-E glass and Argon gas are warmer in the winter and cooler in the summer.

**Year Round Comfort and UV Protection -**  
Low-E glass reflects radiant heat and filters a high percentage of damaging ultra-violet rays.

Low-E reflects unwanted heat to the outside in the summer to keep your house cooler (left) and it reflects indoor radiant heat back inside in the winter to reduce heat loss (right).

Thermal test results available at [www.BFRich.com](http://www.BFRich.com) or [www.NFRC.org](http://www.NFRC.org).
